

Tri County Electric Cooperative, located in the Panhandle of Oklahoma, requests fixed unit price bids for **Permanent Repair** of its distribution system in Texas County, Oklahoma caused by a **snow storm** in April 2017 (**FEMA/OEM DR4315 PW-91**). The work consists of re-spanning, replacement of conductor, removing and relocating poles and cross-arms and installation of additional poles and cross-arms on 855.9 miles of single-phase and 463.7 miles of three-phase lines. All work will be performed pursuant to staking sheets and construction standards provided by TCEC. One hundred eighty-five (185) projects have been preliminarily identified. Time is of the essence. Permanent repair work is expected to begin in the first quarter of 2019 however, the completion of all projects is expected to extend continuously over multiple years. TCEC may select one or multiple firms to ensure timely and cost-efficient completion of all projects. Material will be staged at a location in central Texas County. Quantities shown are approximate. Total miles could be reduced or increased with no change to unit cost bids.

To receive consideration, bid packages must be developed and submitted within these parameters:

1. All Bid packages must be received by mail or in person, **electronic bids will not be accepted**, by 5:00 p.m. on November 30, 2018 addressed to:
